Call Analysis & Quality Intelligence Report

Call Reference: N/A

Agent: N/A

Generated on: 02 July 2026, 04:27 AM

CONFIDENTIAL — INTERNAL USE ONLY

EXECUTIVE SUMMARY

The customer, David, contacted the support team due to his smart refrigerator stopping to cool. The agent attempted a 2-minute reset, which did not resolve the issue, and then scheduled a technician to visit the customer. The customer's concern was addressed promptly, and the issue is expected to be resolved under the warranty. The customer was cooperative throughout the conversation, and the agent demonstrated professionalism and empathy. The call outcome was partially resolved, with a technician scheduled to visit the customer.

CALL OUTCOME

Partially Resolved

CUSTOMER ANALYSIS

Overall Sentiment	Neutral
Journey	Improved
Confidence Score	80
Frustration Level	Medium
Cooperation Level	High
Satisfaction Level	Medium

Detailed Analysis

The customer was initially frustrated due to the refrigerator stopping to cool, but the agent's prompt assistance and resolution efforts improved the customer's sentiment. The customer was cooperative and appreciative of the agent's help. However, the customer's concern was not fully resolved during the call, which might have prevented a fully positive sentiment.

The customer was initially frustrated due to the refrigerator issue, but the customer remained cooperative and communicative throughout the conversation. The customer followed the agent's instructions and provided necessary information to facilitate the resolution process.

AGENT ANALYSIS

Overall Sentiment	Positive
Confidence Score	90
Professionalism	High
Empathy	High
Resolution Focus	High
Communication Quality	High

Detailed Analysis

The agent demonstrated a positive and professional attitude throughout the conversation. The agent was empathetic, apologetic, and focused on resolving the customer's issue. The agent's communication was clear, and they provided detailed instructions to the customer. The agent's overall demeanor contributed to a positive experience for the customer.

The agent demonstrated high professionalism, empathy, and resolution focus throughout the conversation. The agent was apologetic, provided clear instructions, and ensured the customer's concern was addressed promptly. The agent's communication was effective, and they maintained a positive tone throughout the call.

QUALITY SCORECARD

METRIC	SCORE
Customer Experience	85
Agent Performance	95
Overall Call Quality	90

KEY CUSTOMER CONCERNS

- Refrigerator stopped cooling
- Food spoiling due to lack of cooling

EMOTIONAL CUES

- Frustration
- Appreciation

ISSUES IDENTIFIED

- Refrigerator hardware issue

ACTION ITEMS

- Technician visit scheduled

MANAGER INSIGHTS

- The agent demonstrated excellent customer service skills, including empathy and professionalism.
- The customer's issue was addressed promptly, and a technician visit was scheduled to resolve the issue.

- The conversation highlights the importance of effective communication and prompt resolution in maintaining customer satisfaction.
- The agent's ability to remain calm and composed under pressure contributed to a positive customer experience.
- The company's warranty policy and emergency dispatch process helped to mitigate the customer's concern and prevent further escalation.

ROOT CAUSE ANALYSIS

The root cause of the issue appears to be a hardware problem with the refrigerator. The agent's attempt to reset the device did not resolve the issue, indicating a more complex problem that requires a technician's attention.

RISK ASSESSMENT

The customer's issue was addressed promptly, which reduced the risk of further escalation. However, if the technician visit does not resolve the issue, there is a risk of further customer dissatisfaction and potential churn.

CUSTOMER EFFORT ASSESSMENT

The customer had to make an effort to contact the support team and follow the agent's instructions. However, the agent's assistance and guidance minimized the customer's effort and made the process relatively smooth.

CRITICAL CONVERSATION MOMENTS

Incident 1 **LOW**

Start Time: 00:00:00

End Time: 00:00:09

Speaker: Customer

Category: Positive Behaviour

"Hello, I am David. My smart refrigerator completely stopped cooling. Blast night. The food inside is warming up and spoiling."

Reason: The customer initiated the conversation and clearly stated their concern.

Incident 2 LOW

Start Time: 00:01:01

End Time: 00:01:11

Speaker: Agent

Category: Positive Behaviour

"This is a relief. Your unit was first start 14 month ago. Your compressor and seal system are fully covered under our extended warranty planes."

Reason: The agent provided reassurance and explained the warranty coverage, which helped to alleviate the customer's concern.

Incident 3 LOW

Start Time: 00:01:20

End Time: 00:01:25

Speaker: Agent

Category: Resolution Confirmation

"Since the reset didn't start the compressor, it is a hardware issue. I need to send a technician to inspect the cooling coils."

Reason: The agent clearly explained the next steps and confirmed the resolution plan.

FULL TRANSCRIPT

Hello, I am David. My smart refrigerator completely stopped cooling. Blast night. The food inside is warming up and spoiling. I am sorry to hear that. Let's fix this quickly. Can I get your freezers mobile number? The model number is RF28R. Thanks Mr. David. Before booking a technical, let's try our 2 minute reset. Are you near the fridge? Yes, the door screen is on, but I do not hear the compressor running. Open the right door and locate the small plastic panel at the top right. Flip the power switch off for 10 seconds. Then back on. Okay, flipping it off now, waiting 10 seconds. Okay, turning it back on, the screen is rebooting. Perfect. Your unit was first start 14 month ago. Your compressor and seal system are fully covered under our extended warranty planes. This is a relief. The screen is back on now, but I still do not hear the compressor sound. It is definitely not blowing cold air. Since the reset didn't start the compressor, it is a hardware issue. I need to send a technician to inspect the cooling coils. How quickly can someone get here? My food is reaching room temperature. I have an emergency dispatch slot available this afternoon between 2 pm and 5 pm. Will that work? Yes, absolutely. Done. Technician Marcus will arrive in company van and will call you 30 minutes before arrival. Great. Do I need to pay him? No, no. This is free of cost as it is all covered in your warranty planes.
